SUMMARY

Software Engineer with 1+ year of experience at Infosys, including full-stack development with the MEAN stack during an internship and enterprise application development with AS400/RPGLE in a full-time role. Skilled in Angular, Node.js, Express.js, MongoDB, REST APIs, and JWT authentication, with working knowledge of Agile/SDLC practices. Seeking Full Stack Developer opportunities focused on MEAN/MERN technologies.

TECHNICAL SKILLS

Frontend: Angular, React.js, JavaScript, HTML5, CSS3

Backend: Node.js, Express.js

Database: MongoDB, MySQL, DB2

APIs & Auth: REST APIs, JWT, Role-Based Access Control

Tools & Practices: Git, GitHub, VS Code, Agile, SDLC

Enterprise Systems: RPGLE, AS400/IBM i

Certifications: Machine Learning (Stanford – Coursera), Python for Data Science (IBM – Coursera)

EXPERIENCE

Systems Engineer

Aug 2025 – Present

Infosys Ltd.

- Develop and maintain enterprise applications using AS400/IBM i and RPGLE, supporting core business operations.
- Analyze requirements, implement enhancements, and debug production defects following SDLC and Agile practices.
- Collaborate with cross-functional teams on enterprise codebases and business logic, ensuring application stability.

Systems Engineer Intern

Feb 2025 – Jun 2025

Infosys Ltd.

- Built a role-based Project Management System using the MEAN Stack (MongoDB, Express.js, Angular, Node.js) with REST APIs, task-subtask management, and interactive Angular dashboards.
- Developed an Internal Communications Hub with an admin portal, audit logging, and a GrapeJS email builder.
- Implemented JWT authentication, role-based access control, and bulk CSV/XLSX recipient uploads.

PROJECTS

E-Commerce Bookstore | MEAN Stack

Live: ink-quill-nu.vercel.app

- Developed a full-stack e-commerce application using Angular, Node.js, Express.js, and MongoDB Atlas.
- Implemented JWT authentication, role-based authorization, product search, cart, and order management.
- Integrated Razorpay payment gateway (test mode) for order checkout.
- Built an admin panel for inventory and order management.
- Deployed the application using Vercel (frontend), Render (backend), and MongoDB Atlas (cloud database), with environment-based configuration for production.

Portfolio Website | React.js

Live: portfolio-website-pearl-eta-85.vercel.app

- Developed a responsive single-page portfolio using React.js and reusable components.
- Included a downloadable resume, a direct email-contact option, and live demo and GitHub repository links for each featured project.

Book Recommender System | Python

- Built a collaborative-filtering recommendation system using NumPy and Pandas.

EDUCATION

DIT University, Dehradun

- B.Tech – Computer Science & Engineering, 8.68 CGPA (2025)
